The requested documents will be submitted to the Registrar via the HMS database; once all documents have been received, the materials will be reviewed and the application processed.

Outcome:

The applicant will be –

- i) granted registration and registered in the General Register; or
- ii) granted registration and registered in the General Register with “Terms and Conditions” for example - must complete education/hours of practice within a certain date; or
- iii) denied renewal of registration because they have not met the requirements.

The applicant may appeal the decision to the Council.

Please NOTE* - Registrants who are registered on the Provisional or Special Register cannot renew their registration. They must apply to the College as if they are a new applicant (Occupational Therapists Regulations 6.(4) and 7.(2))
